

PRESS RELEASE

FIRST “TORSIONAL VIBRATION SYMPOSIUM”, 21st- 23rd May, 2014

Salzburg, 2nd July, 2013

Filling a perceived gap in the global calendar of technical gatherings in the power transmission sector, the first “**TORSIONAL VIBRATION SYMPOSIUM**” will be held from 21st to 23rd May, 2014 in Salzburg, AUSTRIA. The goal of the Symposium is to stage a unique event for experts involved with the subject matter from all over the world and from any affected branch of industry. The event is organized by the newly formed Vibration Association located in Salzburg and an Advisory Board of international experts.

The **proposed program** includes sessions on:

- Torsional Vibration aspects of combustion engines
- Powertrain components
- Applications and system behavior
- Fundamental engineering and Torsional Vibration calculation
- Torsional Vibration measurement
- Rules and regulations

The **Advisory Board** members are experts in the field of Torsional Vibration or are related to this sector:

- Robert Gläser, Wärtsilä Switzerland Ltd.
- Torsten Philipp, Geislinger GmbH
- Per Rønnedal, MAN Diesel & Turbo
- Matthias Schuchardt, MTU Friedrichshafen GmbH
- Prof. Christoph Spensberger, Dresden University of Applied Sciences
- Jonathan Walker, MTZ Industrial
- Prof. Andreas Wimmer, Technical University Graz

Keynote speaker:

The keynote speech will be held by **Prof. Georg Wachtmeister**, which is known as one as the world leading experts in the field of internal combustion engines. Prof. Georg Wachtmeister is head of the Institute of Internal Combustion Engines at the Technische Universität München.

In cooperation with

**TORSIONAL
VIBRATION
SYMPOSIUM**

The Symposium is organized by the "Vibration Association", in cooperation with Geislinger GmbH, ITI GmbH and MTZ industrial magazine.
