TORSIONAL VIBRATION SYMPOSIUM 2025 – SPONSORING

Filling a perceived gap in the global calendar of specialist meetings in the power transmission sector, the Vibration Association, located in Salzburg, Austria, organizes the **4th TORSIONAL VIBRATION SYMPOSIUM**.

The goal of the Torsional Vibration Symposium is to stage a unique event for experts working in Marine, Oil & Gas, Rail Traction, Power Generation, On & Off Highway, Industrial Applications and Compression Systems.

The main topics of the presentations will be:

- Engine Development
- Marine Propulsion
- System Reliability
- Powertrain Components
- Compressors
- Gear Systems
- Hybrid & Electric Drives
- Simulation
- Measurement, Validation & Monitoring
- Digitalization / Big Data
- Noise, Vibration & Harshness (NVH)
- Alternative Energy Carriers / Decarbonization
- Influence of Emission Reduction Strategies on Vibrations
- Rules & Regulation

The Symposium is organized by the Vibration Association in cooperation with sponsors.

Further details will be posted at: www.torsional-vibration-symposium.com
or will be obtained by mailing: info@torsional-vibration-symposium.com.

BENEFITS OF PROMOTING THE TORSIONAL VIBRATION SYMPOSIUM
